Commerce & Technology

September 24, 2015

To whom it may concern:

The purpose of this letter is to offer my support for the efforts of Mr. Anderson Lail's businesses in the development of a prototype.

In May 2015, Anderson Lail, President of Solaran Industries, contacted my office. Anderson contacted me because he wanted to connect with state officials regarding the research and development of a prototype. I personally met with Anderson on May 28, 2015 and I was very impressed with his enthusiasm and outlook for their soon to be prototype, the Quantum Transceiver. I am encouraged that this technology can dramatically change the speed at which we communicate.

I recently found out that Solaran Industries created a subsidiary, Applied Subspace LLC., to develop and commercialize this innovative technology. I trust that this will be an important step on the pathway to success.

Thank for your time and serious consideration of the Quantum Transceiver.

Sincerely,

A handwritten signature in black ink that reads "Randy Head".

Randy Head
State Senator
District 18
